## LA-100W

Alpha lens adaptor for HVR-Z7E and HVR-S270E

With a special adaptor LA-100W, it is possible to use the aLens series designed for Sony Digital SLR still cameras. The difference in sensor size between the HVR-Z7 and HVR-S270 and D-SLR camera means that

the effective focal length of still camera lenses is multiplied by 7x. This feature can be used for a wildlife video shooting. Or the shallow depth of field created by the still lens is ideal for filmmaking on a budget.

## Compatible Products

### HDV Camcorders

#### HVR-S270E

1/3-inch type 3 ClearVid CMOS sensor HDV camcorder with interchangeable lens system recording HD /SD

#### HVR-Z7E

1/3-inch type 3 ClearVid CMOS sensor with Exmor technology HDV camcorder with interchangeable lens system recording HD / SD

### HDV Camcorders

#### HVR-S270E

1/3-inch type 3 ClearVid CMOS sensor HDV camcorder with interchangeable lens system recording HD /SD

#### HVR-Z7E

1/3-inch type 3 ClearVid CMOS sensor with Exmor technology HDV camcorder with interchangeable lens system recording HD / SD
