

PDP-15C

Compact, cost-effective and extremely efficient, DAT sets the standard for supreme quality digital audio recording accross a variety of production environments.

- Crystal art magnetic particles for high-density recording
- Advanced binder system and higher packing density for better durability
- Low error rate even after 1,000 cycles shuttle tests
- Cassette shell shuts out dust and foreign particles
- Polypropylene case protects the cassette.
- Cleaning Tape: DT-10CLD

Technical Specifications

General Characteristics

| | |
|--------------------------------|-------|
| Master Carton Quantity (piece) | 100.0 |
| Master Carton Weight (kg) | 4.7 |
| Playing time (min.) | 15.0 |
| Tape length (m) | 8.0 |
| Weight (g) | 41.7 |

Magnetic Properties

| | |
|-----------------------------|-------|
| Intrinsic coercivity (kA/m) | 121.0 |
| Retentivity (mT) | 250.0 |
| Squareness (Br/Bm) | 0.82 |

Physical Properties

| | |
|-----------------------|------|
| Thickness: Total (µm) | 13.0 |
| Width (mm) | 3.81 |
